

Toolbar

- Notes:**
- If the user is a Guest:
 - The "Ask a Question" button is disabled (A).
 - Click the Login button (B) to bring up a login dialog (C).
 - User can enter User ID and Password to login, or Cancel the login attempt.
 - If the user is logged in:
 - The "Ask a Question" button is enabled (D).
 - Display the user's User ID with their Reputation value (E).
 - A dropdown menu (F) displays some information about the logged-in user, as well as a **Log Out** button (G).
 - Display the same Samplestack account details shown when clicking on a Samplestack user's display name. (See: *Miscellaneous Interaction Details*.)
 - Click the logo (H) to return to the Home Page, restoring its default state (i.e. with all settings and fields cleared).
 - Toolbar should remain pinned to the top of the window (i.e. not scroll with the window contents).
