<input type="checkbox"/> OtherTag5	SelectedTagA - result
	SelectedTagA - result
	SelectedTagA - result

Tags	OtherTag1 - result
<input checked="" type="checkbox"/> OtherTag1	OtherTag1 - result
<input type="checkbox"/> OtherTag2	OtherTag1 - result
<input type="checkbox"/> OtherTag3	OtherTag1 - result
<input type="checkbox"/> OtherTag4	OtherTag1 - result
<input type="checkbox"/> OtherTag5	OtherTag1 - result
<input type="checkbox"/> SelectedTagA	OtherTag1 - result
	OtherTag1 - result
	OtherTag1 - result
	OtherTag1 - result
	OtherTag1 - result

- Notes
- Any tag may have "related tags".
 - UX for "Show related tags" is omitted in these sketches.
 - Related result set is different from initial result set, i.e. a different slice of the search results.
 - Size of result set may be larger or smaller.

Outcome (from meeting on 2014-08-19):

- Use this approach for initial release, as originally documented in the wireframes.
