Notes:
- The "more…" link in the Tags filter list opens a dialog for browsing and searching all available tags, based on the currently displayed Question list.
    - All available tags are initially listed (A) with a paging control (B).
        - Tags may be selected or deselected, to be added to or removed from the Selected Tags list (in the Tags filter sidebar).
    - Tags can be sorted by count or name (C).
        - Count sort is most frequent first. (This is the default.)
        - Name sort is alphabetical.
    - Tags that have previously been selected (e.g. in the Filter Results sidebar) will show as selected here (D).
- Enter text into the search box (E) to show only matching tags (F).
    - Matching and name highlighting should be based on what is done in the Tags filter sidebar.
    - The reduced tag list should be reflected in the paging control (G).
