OK

Notes:

- Click a tag (A) in any Question or Answer content to:
    - Go to Home Page/Browse mode (clearing contents of search box), **and…**
    - Replace currently selected Tag filters (if any) with the selected tag, **and…**
    - Clear all other filters, **and…**
    - Update Question list accordingly.
- Click a display name (B) in any Question or Answer content to:
    - Go to that user's Stack Overflow profile page (if the content was imported from Stack Overflow), **or:**
    - Show a dialog (C) that displays some information about the user (if the user's account was created in Samplestack).
        - Display the same information shown in that user's toolbar menu. (See: *Toolbar*.)
- Show a tooltip (D) for the display name link, to indicate whether it's associated with a Stack Overflow account, i.e.:

    Go to Stack Overflow profile page

    or was created in Samplestack, i.e.:

    Show Samplestack account details

    Also add an off-page indicator to the display name link for Stack Overflow accounts, e.g.:
